

**Description:**

The intent of the *Dodge County, WI COVID-19 Weekly Report* is to turn real data tracked into a visible format for the community to stay informed on the current status, past trends and trajectory of COVID-19 infection in Dodge County, WI to aide in virus mitigation decision making.

The data shown in this report are subject to change. We strive for transparency and accuracy in our data, and as individual cases are investigated by public health, there may be corrections to the status and details of cases that result in changes to this information. Some examples of corrections or updates that may lead to changes to our data, such as case and negative counts and deaths going up or down, include:

- Update or correction of case's address, resulting in a change to their location of residence to another county or state,
- Correction to laboratory result,
- Correction to a case's status from confirmed to unconfirmed (for example, if they were marked as confirmed because a blood test detecting antibodies was positive instead of a test detecting the virus causing COVID-19),
- De-duplication or merging and consolidation of case records,
- Update of case's demographic information from missing or unknown to complete information.

## WI- Vaccine Distribution Summary

Last updated: 5/11/21

Allocated

4,872,575

Last updated: 5/16/21

Administered

4,869,481

Pfizer

Moderna

Janssen

As of 5/16/21:

36.3% of Dodge County Residents have received at least 1 dose of a 2-dose vaccine series.

31,860

32.1% of Dodge County Residents have completed a 2-dose vaccine series or 1 dose only vaccine

28,176

## Wisconsin Updates:

### Wisconsin Now Offering COVID-19 Vaccinations to Children Ages 12-15

May 12, 2021--The Wisconsin Department of Health Services (DHS) announces that children 12-15 years old are now eligible to receive the Pfizer COVID-19 vaccine and vaccinations can begin starting Thursday, May 13. The Pfizer COVID-19 vaccine requires two doses for full protection and is the first and only vaccine available for this age group.

[Full Press Release](#)

[COVID-19 Vaccine For Ages 12 and Older What Parents Should Know](#)

I got my COVID-19 vaccine!

### Fully Vaccinated People Can Resume Activities Without Masks

May 14, 2021--On May 13, the CDC released updated guidance that **fully vaccinated people can resume activities they did before the pandemic, including participating in indoor and outdoor activities – large and small – without wearing a mask or physically distancing.**

Fully vaccinated people can also refrain from testing following a known exposure unless they are residents or employees of a correctional or detention facility or a homeless shelter. A person is considered fully vaccinated against COVID-19 if it has been two or more weeks since they got the second dose in a two-dose series (such as Pfizer or Moderna), or one dose of a single-dose vaccine (such as Johnson & Johnson). This updated guidance solidifies our confidence in COVID-19 vaccines and reflects the effectiveness of vaccines in preventing the spread of disease.

[Full News Release](#)

### Help us say Good-Bye to COVID-19:

All groups 18 and older are now eligible for the vaccine at one of our weekly **Moderna** COVID-19 vaccination clinics:

- Everyone 18 and older may complete and submit the appropriate interest form on our website to get on our weekly vaccination clinics list.
- We have Spanish interpreters on-site!
- Currently NO waitlist!
- Walk-ins are now welcome during clinics!
- To sign up:
  - 1) Visit [HERE](#) to select your interest form.
  - OR
  - 2) Call our Vaccine Hotline at **920-386-4830** to leave a message.

### Dodge County Public Health Unit to hold Youth Pfizer COVID-19 Vaccine Clinics:

- Clinics listed are open to any Wisconsin student 12 y/o and older
- A parent or legal guardian must also be present
- Appointments guarantee vaccine but walk-ins are welcome
- Call to make an appointment: 920-386-4830

#### Wednesday, May 19

**Human Services and Health Dept. Building**  
199 County Rd DF, Juneau, WI 53039  
3:30pm- 6pm (unless vaccine runs out)

#### Thursday, May 20

**Hustisford High School- Gymnasium**  
845 S Lake St, Hustisford, WI 53034  
3:30pm- 6pm (unless vaccine runs out)

#### Friday, May 21

**Mayville High School- Gymnasium**  
845 S Lake St, Hustisford, WI 53034  
3:30pm- 6pm (unless vaccine runs out)

#### May 14, 2021 Press Release

**Dodge County Public Health: Let's enjoy the upcoming Memorial Day weekend and 2021 Graduation Parties as we move into Phase 3!**

We are also pleased to announce that Dodge County will now move to Phase 3 allowing for larger group gatherings. The phase change will include businesses, bars and restaurants ability to allow up to 75% of their approved capacity and social gatherings ability to increase from 50 to 250 people while still following physical distancing and face covering guidelines.

### Phase Three

#### Wisconsin COVID-19 Vaccine Hotline

For vaccine help, Wisconsin residents can call

**844-684-1064**

This call center is equipped to help people find vaccine locations, answer medical questions related to the Covid-19 vaccine, and assist with registration, including but not limited to providers using the Wisconsin COVID-19 Vaccine Registry

#### DHS Transitions to VaccineFinder

The Wisconsin Department of Health Services (DHS) will begin using VaccineFinder to help people more easily locate available vaccine providers who are open to the public.

The Centers for Disease Control and Prevention (CDC) launched the VaccineFinder tool in March to help people find COVID-19 vaccine in their area. Next month, the tool will replace the DHS map of COVID-19 vaccine providers that launched in February.

# WEEKLY COVID-19 REPORT: COVID-19- COMMUNITY POSITIVE CASE STATISTICS

\*Statistics on this page are calculated using total Confirmed Community cases unless otherwise stated.

## Case Breakdown

## Age Range of [Confirmed] PCR & [Probable]Antigen test COVID-19 Individuals

**52**

Total Positive Confirmed and Probable cases this week.

## % ever HOSPITALIZED

● HOSPITALIZED  
● NOT HOSPITALIZED

## Weekly % HOSPITALIZED

● HOSPITALIZED  
● NOT HOSPITALIZED

**"Hospitalized"** means the person needed to be admitted to the hospital for medical care at some point in their illness. This does not include someone that was only seen in urgent care or the emergency department. The length of admission varies among cases: *at least one night or up to a month or longer.*

**Less than 1%** of those cases were put on mechanical ventilation to assist with breathing.

**3** patients with COVID-19 were admitted to the hospital this week because of their symptoms. Does not include DOC cases.

**132** cases are actively isolating at their homes and receive daily monitoring calls from Public Health staff. **Up 1 confirmed case from last week.**

**9,279** cases are recovered: it has been 10 days since symptoms first appeared and they have been symptom-free for 24 hrs. **Up 42 confirmed cases from last week.**

**185** cases are deceased from the virus. **Up 0 confirmed cases and 0 probable cases from last week.** (\*8 of the total deaths are from the Department of Corrections).

## RECOVERY STATUS

## Counting deaths among COVID-19 cases in Dodge County:

DHS COVID-19 Deaths

- ✓ 1. Deaths must be reported by health care providers, medical examiners/coroners, and recorded by local health departments in order to be counted.
- ✓ 2. The medical examiner in the county of the death reviews all pertinent medical records and tests to determine the cause of death.
- ✓ 3. COVID-19 must be listed as a "cause of death" or "other significant condition" in order for it to be considered a COVID death
- ✓ 4. A death is counted in statistics once the death certificate is finalized and received by Dodge County Public Health..

## COVID-19 Deaths by Age and Gender

## Medical care received:

Hospitalized	103
Any Intensive Care	22
Intubated	17
Not Hospitalized	34
Unknown Hospitalization Status	38

Source: Public Health Analysis Visualization and Reporting (PHAVER) web portal.

## Death by Setting

## COVID Deaths per Month

\*Probable

Deaths among probable cases are those that meet one of the following criteria:

1. A probable case of COVID-19 is reported to have died from causes related to COVID-19.
2. A death certificate that lists COVID-19 disease or SARS-CoV-2 as an underlying cause of death or a significant condition contributing to death is reported to DHS but WEDSS has no record of confirmatory laboratory evidence for SARS-CoV-2.

TOTAL TESTS

44

POSITIVE PCR TESTS

271

NEGATIVE PCR TESTS

13.97%

% Pos Weekly Avg

### 14-Day % Positive Rate By Person

Of Concern

Proceed with Caution

Good

Line Key

% Positive Rate by Person

Daily % Positive Rate by Person

7 Day Average % Positive Rate by Person

Goal:

- <5%
- downward trajectory

#### Calculations:

1) % Positive Rate By Person = Total Positive Tests ÷ Total Positive and Negative Labs

\*aka. "Rolling average" - more accurate

2) Daily % Positive rate By Person = # Positive labs in last 24 hrs ÷ total labs resulted in last 24 hrs

\*fluctuations occur more frequently based on how long different labs take to produce test results and the LPHD's resources to manually log positive results.

3) 7-day average = Total Positive tests from the week ÷ total tests from the week

\*to smooth out any day-to-day fluctuations and track overall trends

### Rolling % Positive Rate By Person Trajectory

Of Concern

Proceed with Caution

Good

Explanation: The percent positive is exactly what it sounds like: the percentage of all coronavirus PCR tests performed per person that are actually positive, or: (positive cases)/(total positive + negative persons) x 100%. Percent positive by person only includes each person once across the duration of the pandemic. The percent positive (sometimes called the "percent positive rate" or "positivity rate") helps public health officials answer questions such as:

- What is the current level of SARS-CoV-2 (coronavirus) transmission in the community?
- Are we doing enough testing for the amount of people who are getting infected?

## Weekly Positive & Negative Lab Results

**13.97%** of people tested this week for COVID-19 were positive. Decreased ~4% since last week.

## Cumulative Testing Data

Week 61: April 26- May 2  
Week 62: May 3- 9  
Week 63: May 10-16

Introduction:

The Harvard Global Health Institute and Harvard’s Edmond J. Safra Center for Ethics have been working with a network of research and policy organizations to achieve convergence around recommendations for core metrics to be used to evaluate the status of COVID response and key performance indicators to evaluate how well particular tools of response are being deployed. Putting it in a rate per 100,000 population allows you to compare it to other counties with varying populations.

Purpose: A unified approach for suppressing COVID-19 with common metrics to help anticipate and get ahead of the virus rather than reacting to uncontrolled community spread.

COVID Risk Level Map:

Risk Level: GREEN	Risk Level: YELLOW	Risk Level: ORANGE	Risk Level: RED
Less than ONE case PER 100,000 People	1-9 cases PER 100,000 People	10-24 cases PER 100,000 People	25+ cases PER 100,000 People
On track for containment	Community Spread	Accelerated Spread	Tipping point
Monitor with viral testing and contact tracing program	Rigorous test and trace programs advised	Stay-at-home orders and/or rigorous test and trace programs advised	Stay-at-home orders necessary

The rate of positive cases per 100,000 population is based on community positive cases only using a 2020 preliminary population for Dodge County of 90,005. No department of corrections positive cases are factored into this model as we feel they do not accurately represent the community spread of the virus in Dodge County.

Harvard Model: Is reported as a 7 day average

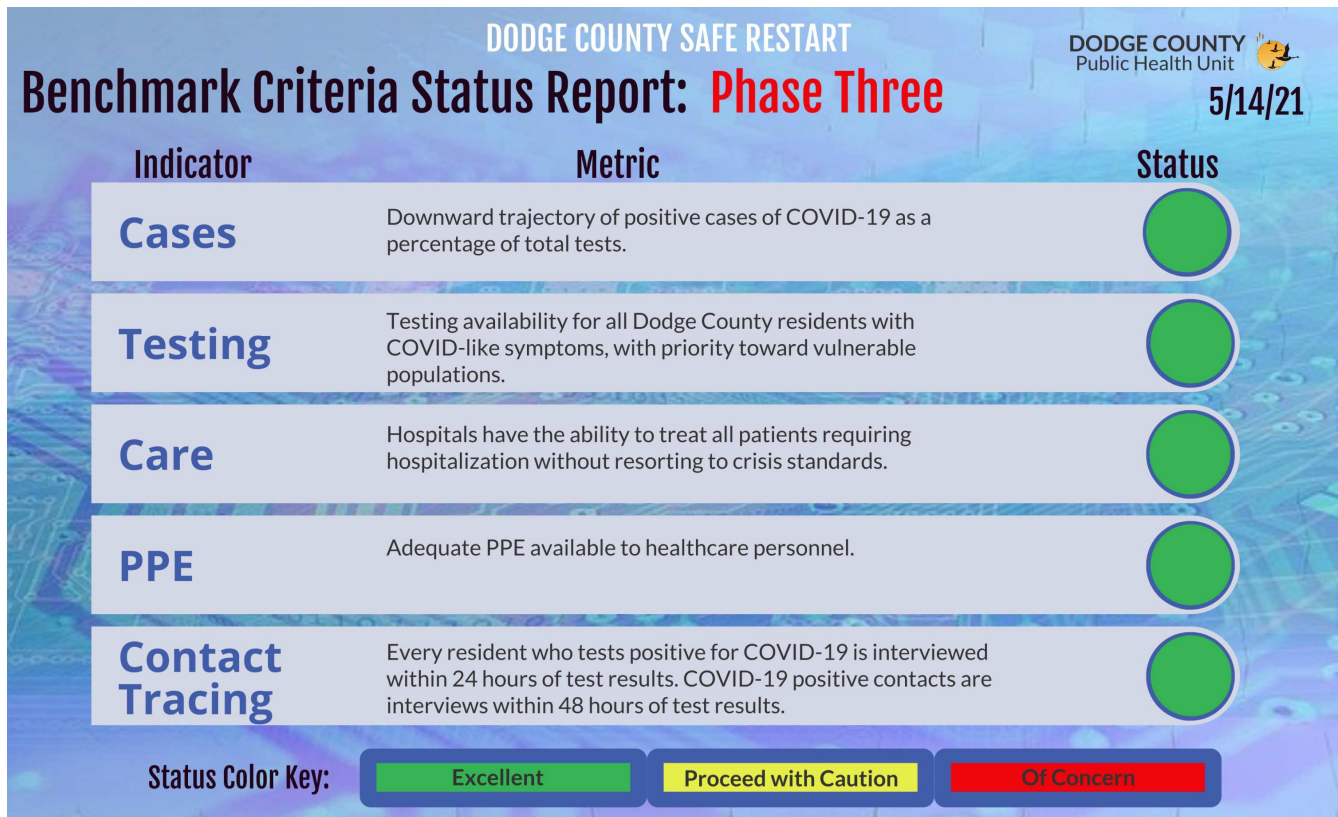

# DODGE COUNTY SAFE RESTART

**WHAT IS IT?:** A measured, phased-in approach that utilizes data-driven benchmark criteria and aligns with federal and state metrics has been developed to guide Dodge County decision making.

Effective May 14, 2021, Dodge County will transition to **Phase THREE** of the Dodge County Safe Restart: [May 14, 2021 Press Release](#)

**READ THE FULL PLAN:** Visit our website under the "Coronavirus Information" > Dodge County Safe Restart tab and click the link: "[Dodge County Safe Restart Guidelines and Recommendations for Action](#)" to read the full plan.

## Weekly Benchmark Criteria Scorecard: Updated 5/14/2021

## Public Recommendations:

- Businesses should continue using the general best practice guidelines from the Wisconsin Economic Development Corporation (WEDC) and any sector-specific recommendations that apply to the work being done. If your sector is not included the CDC has additional resources for sectors/organizations to reference.
- Limit capacity within non-essential businesses, bars, restaurants, and organizations to **75% or less**.
- Events held outdoors should allow for all people to maintain 6 feet physical distance (36 square feet per person) from others.
- People age 65 or older and those who are medically vulnerable should continue to limit travel and remain at home as much as possible.
- Support online education/remote work options as able.
- Encourage curbside pick-up to reduce in-store traffic and long lines.
- If community members choose to gather socially, private indoor social gatherings should be limited to **250 people or less with physical distancing**.
- Encourage masking for both staff and consumers.

# Should I get tested?

Anyone with symptoms of COVID-19 or who has been exposed to COVID-19 should get tested.

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

If you think you need to get tested:

- Contact your doctor to ask if your primary health care clinic is providing testing.
- Find a local community testing site. Testing at these sites are provided at no cost. Some locations may require a doctor's note or appointment to receive a test.

## Where to find community COVID-19

To find a testing site near you click [here](#)

All WING-supported testing sites are able to test children 12 months or older.

### Ongoing Community Sites Near Dodge County:

#### **Beaver Dam Community--Beaver Dam, WI ([Walk-in](#))**

[1701 N. Spring St, Beaver Dam, WI 53916](#)

Mondays: 11:00am-5:00pm.....until 5/24/21
